SUDAN

THE PROVISIONAL ISSUE OF 1940

Due to the war a shortage developed during 1940 in the 5 milliemes stamp of Sudan
The 5 milliemes stamp was most in demand as it was used for internal postage.
To meet the situation a quantity of the lesser used 10 milliemes was surcharged 5 MILLS with the Arab equivalent below.

Arabic must be read from the left. There are three forms of each letter: initial, medial & final. The word (left) reads 'mileem' - the French equivalent of 'millieme' but the short 'i' is not expressed or indicated. The final 'm' is the initial letter with a tail or flourish.
